Buffalo, N.Y.

Gentlemen:

We have carefully gone over the inventory and drawings of our plant which you made for us- and we are well satisfied with same.

We have checked over the values and find them correct; and the plans show all details of our factory in first class shape.

We do not beleive that we could have taken an inventory of our plant any better ourselves- and probaly not as thoroughly as you have done; and furthermore- we beleive it would have cost us more money than your charge for doing the work.

Any time that you may wish to refer to us you are at liberty to do so.

Yours very truly,
Jas. B. Baynes, Pres't.
